SHARIF RAYAN

Sharifrayan952@gmail.com | (+91) 8838612520 | Vaniyambadi, Tamil Nadu, India
LinkedIn: linkedin.com/in/sharif-rayan | **GitHub**: github.com/sharif9896| **Portfolio:** Portfolio/Rayan

Skills:

Programming Languages: JavaScript, Java, Python, C, C++, PHP & SQL (MySQL),
Frameworks & Tools: React.js, Node.js, Express.js, AWT Authentication, RESTful APIs, Git & GitHub
Databases & Tools: MySQL Databases, MongoDB, PHP MyAdmin, Docker, Kubernetes & CI/CD.
Styling Frameworks & Tools: Tailwind CSS & Bootstrap, Redux Toolkit, WebRTC, Socket.io**.**

Education:

Islamiah College | B.Sc. | Computer Science | **GPA**: 9.5 — July 2023 – Apr 2026
Islamiah Boy's Higher Secondary School | XII (HSC) | 88.39% — June 2022 – Apr 2023
Islamiah Boy's Higher Secondary School | X (SSLC) | 78% — June 2020 – Apr 2021

Work Experience:

Full Stack Developer: DiyaproSoft, Bengaluru Demo1 Mar-2023 – (2026)Present

- Developed a complete **College Management Software (CMS**) and **LMS** during internship, currently used by **1,000+ active users,** enabling staff and students to manage attendance, exams, student records, and daily workflows efficiently. Demo2
- Built an **attendance app that replaced outdated manual scripts** used across the college, automating tasks and improving operational efficiency.
- Created **ExamCraft**, an intelligent **question paper generator**, solving a long-standing issue for staff who relied on MS Word for exam paper creation. Demo3
- Delivered **5–10 real-world production-level applications**, including **50+ projects**, demonstrating strong hands-on experience and problem-solving skills.

Specialized in **MERN stack, real-time applications, and end-to-end development**, delivering scalable and user-focused solutions.

Academic Projects:

CMS – Full Stack Customise Education Software (Real-Time) 1,000+ Users Demo | GitHub
Tech Stacks: JavaScript, React.js, Node.js, Express.js, MongoDB, **MVC Architecture**, Python
Built a real-life Full Stack Customise Education Software by 1,000+ students. replacing the college's Google Forms–based exam process with a secure, automated platform for conducting quizzes, MCQs, and timed exams. Streamlined the entire exam workflow for staff and departments, enabling question creation, live exams, instant evaluation, result generation, and improved reliability during peak usage.

StreamX – Full Stack Live Video Streaming (Real-time) Communication Demo | GitHub
Tech Stacks: JavaScript, React.js, Node.js, Express.js, MongoDB, **MVC Architecture**.
I have also built a Live Video Streaming Application using **WebRTC** and **Socket.IO** for real-time communication,

PulseChat – Full Stack Real-Time-Chat-Application (Real-time) Demo | GitHub
Tech Stacks: Micro Services, Radis, RabbitMQ, **Docker, Socket.io**, React.js, Node.js, MongodB, MVC
Built a real-time chat application enabling instant messaging using modern web technologies and real-time communication protocols.

Exam Craft – Full Stack Question Paper Generators by Individual Staff - (AI) Demo | GitHub
Tech Stacks: AI Powered, React.js, Node.js, Express.js, MongoDB, **MVC Architecture**
Exam Craft, a question paper generator that solved a long-standing problem for staff who used MS Word for paper setting.

ICA – Full Stack Attendance Web Application (Real-World) Demo | GitHub
Tech Stacks: JavaScript, React.js, Node.js, Express.js, MongoDB, MVC Architecture, Python
Developed **ICA**, a real-world Full Stack Attendance Web Application for college operations, replacing an outdated staff attendance script and eliminating slow, inaccurate attendance tracking.

Positions of Responsibility:

- Coordinated and managed technical projects during my internship, ensuring smooth execution and successful delivery of core software modules.
- Took ownership of building key systems like CMS, LMS, and Exam Craft, leading their end-to-end development and deployment.
